# Status Update SeaTable CS3

Christoph Dyllick-Brenzinger  
March 20th, 2025, LMU München

**SeaTable Status Update**

# What is SeaTable?

[What is SeaTable?](#)

## SeaTable in a nutshell

**SeaTable is the world leading self-hosted, collaborative no-code platform to build your own business processes and workflows.**

— from the developers of Seafile

**What is SeaTable?**

# Two software solutions – a perfect match

## Seafile

- **unstructured data**
- Save / sync and share any file format
- unlimited number of files

## SeaTable

- **structured data**
- Build / design / work and visualize any kind of data.
- Millions of rows

Deine Zugangsdaten 

Hey Susanne  
Schön, dass du bei uns bist. Auf dieser Seite findest du alle Zugangsdaten, die du für den Einstieg bei uns benötigst. Mit diesen solltest du sofort loslegen können.  
**Wichtig: Bitte ändere alle Passwörter nach dem ersten Login! Anleitungen findest du auf der nächsten Seite.**

### E-Mail / Webmailer

Benutzername: susanne@seatable.io  
Passwort: 329d-wflwef#wfo23  
Adresse des Mailerverses: mail.seatable.io

Mit diesen Zugangsdaten kannst Du jedes E-Mailprogramm wie Outlook oder Thunderbird konfigurieren. Anleitungen findest du hier: <https://docs.mailcow.email/client/client/>  
Alternativ nutze den Webmailer: <https://mail.seatable.io>

### Login-Portal

Benutzername: susanne@seatable.io  
Passwort: 329d-wflwef#wfo23  
URL: <https://auth.seatable.io>

Mit unserem Login-Portal kannst du mit nur einer Anmeldung auf die verschiedenen Dienste zugreifen. Beim ersten Login musst du einen zweiten Faktor (Handy-App) anlegen. Ich empfehle dir "2FA Auth".

### SeaTable Cloud

Benutzername: susanne@seatable.io  
Passwort: 329d-wflwef#wfo23  
URL: <https://cloud.seatable.io>

Deine Zugangsdaten für unsere SeaTable Cloud.

### Telefonie / Chat

Durchwahl: 99  
Passwort: 329d-wflwef#wfo23  
URL: <https://dm8.3cx.de/webclient>

Du bist ab sofort telefonisch erreichbar über 06131-26880-xx. Unsere Telefonanlage ist auch interner Chat und ein Videokonferenzsystem.

### WLAN-Zugang

Netzwerk (SSID): datamate-quest  
Passwort: 329d-wflwef#wfo23

SeaTable Status update

# Available page types in the universal app

# Differences between base and app?

## Base

- Designed for working directly with your data.
- Allows editing and creating database structures.
- Everyone with access to a base has at least read-only access to all data.
- Primarily serves as the workspace for owners and collaborators.

## App

- Provides a custom interface tailored to specific data from your base.
- Enables fine-grained permissions for controlling access to data.
- Displays only a subset of data relevant to the app's purpose.
- Can be shared externally without requiring user accounts, making it suitable for customers or business partners.

**SeaTable Status Update**

# **What happened in SeaTable in the last year?**

What happened in the last year?

# More Powerful App Builder

Two new page types and many many improvements in the app builder.

# Advanced filters with groups

The screenshot displays a user interface for creating complex search queries using a combination of filter groups and individual filters.

**Filter Group 1 (Top):** An "And" group containing:

- Date filter: "is after..." → "exact date..." → "1980-01-01"
- Single selection filter: "Male"

**Filter Group 2 (Bottom):** An "Or" group containing:

- An "And" group (which itself contains another "And" group) containing:
- Date filter: "is after..." → "exact date..." → "1985-01-01"
- Single selection filter: "Female"

**Bottom Navigation:**

- + Add filter
- + Add filter group

# OpenAPI Documentation

The screenshot shows the Seatable API Reference interface for the 'Get Account-Token with Username and Password' endpoint.

**Left Sidebar:**

- SEATABLE API**
  - Introduction
  - Authentication
  - Try It! with your own Server
  - Status Codes
  - Limits
  - Models
  - Changelog
  - Help & Support
- AUTHENTICATION**
  - Account-Token
    - Get Account-Token with Username and Password** (highlighted)
  - API-Token
  - Base-Token
- BASE OPERATIONS (FROM 4.4)**
  - Base Info

**Center Content:**

## Get Account-Token with Username and Password

**Try It!** `https://{{server}}/api2/auth-token/`

Generate an *Account-Token* with your username and password. This Account-Token is necessary for all the following account operations. Use the optional parameter if two-factor-authentication (2FA) is activated for your account.

**FORM DATA**

<b>username</b> string required Your email address	<input type="text"/>
<b>password</b> string required Your password	<input type="password"/>

**HEADERS**

<b>X-SEAFILE-OTP</b> string Two-factor token (usually generated with a mobile app like the google authenticator), optional, only needed if 2FA is activated for your account.	<input type="text"/>
--	----------------------

**LANGUAGE**

Shell Node Ruby PHP Python ...

**URL**

Base URL: `https://cloud.seatable.io/api2/auth-token/`

**CURL REQUEST**

```
1 curl --request POST \
2   --url https://cloud.seatable.io/api2/auth-token/ \
3   --header 'accept: application/json' \
4   --header 'content-type: application/x-www-form-urlencoded'
```

**EXAMPLES**

**RESPONSE**

Click **Try It!** to start a request and see the response here!  
Or choose an example:

application/json

200 400

## Other cool stuff

- Enhanced **Import Wizard** with data preview functionality
- **Airtable Migration Tool** for seamless data transfer
- Advanced **Long-Text Editor** with improved features
- **Cross-column filters** and conditional formatting capabilities
- Harmonized API endpoints through **API Gateway** implementation
- Improved functions of SeaTable's **Big Data Backend**
- ...

## **What else – besides new functions?**

- **New Homepage Launch:** A brand-new seatable.com website was launched yesterday.
- **Pentest Success:** Independent security audit completed, revealing only minor vulnerabilities.

# New customers (public sector)

# New customers

**SeaTable Status Update**

# **Outlook for CS3 2026**

# Outlook for CS3 2026

- **AI Integration:** Chatbot and AI features
- **New Plugins:** Report Design Plugin and more
- **Advanced App Builder:** Booking pages
- **Multi-Page Web Forms**
- **Meta Apps**
- **User Impersonation**
- **BSI Certification:** Expected by end 2025
- **iOS Client:** Complementing Android app
